

# **Parktown Boys' High School**

District: 9

## **Geography Department**

**JUNE EXAM**

**PAPER 2**

**Grade 12**

Examiner: Mr A Meintjes

Moderator: Ms A Clayton

Number of pages: 20

Time: 3 Hour

Total: 150 Marks

Date: 11 June 2026

## **INSTRUCTIONS AND INFORMATION**

1. This question paper consists of TWO SECTIONS.

### **SECTION A**

- QUESTION 1: RURAL SETTLEMENT (60)
- QUESTION 2: URBAN SETTLEMENT (60)

### **SECTION B**

- QUESTION 3: GEOGRAPHICAL SKILLS AND TECHNIQUES (30)

2. Answer ALL THREE questions.
3. All diagrams are included in the QUESTION PAPER.
4. Leave a line between the subsections of questions answered.
5. Start EACH question at the top of a NEW page.
6. Number the answers correctly according to the numbering system used in this question paper.
7. Do NOT write in the margins of the ANSWER BOOK.
8. Draw fully-labelled diagrams when instructed to do so.
9. Answer in FULL SENTENCES, except when you have to state, name, identify or list.
10. Units of measurement MUST be indicated in your final answer, e.g. 1 020 hPa, 14 °C and 45 m.
11. You may use a non-programmable calculator.
12. You may use a magnifying glass.
13. Write neatly and legibly.

## **SPECIFIC INSTRUCTIONS AND INFORMATION FOR SECTION B**

14. A 1: 50 000 topographical map of 2727 CA KROONSTAD and an orthophoto 2727 CA 22 KROONSTAD are provided.
15. The area demarcated in RED on the topographical map represents the area covered by the orthophoto map.
16. Marks will be allocated for steps in calculations.
17. You must hand in the topographical and the orthophoto maps to the invigilator at the end of this examination session.

## SECTION A: RURAL & URBAN SETTLEMENT GEOGRAPHY

### QUESTION 1: RURAL SETTLEMENT

1.1. Various possible answers are provided for each question. Write down only the letter of the correct answer next to the corresponding number.

- 1.1.1 Settlements that are accessible and provide goods and services to surrounding rural areas are known as ...  
A. Specialised cities.  
B. Break-of-bulk points.  
C. Central place towns.  
D. Gateway towns (1)
- 1.1.2 In the study of rural geography, 'site' is a concept that describes ...  
A. a settlement's actual location.  
B. how far a settlement can see.  
C. a place where city infrastructure is being built.  
D. how close or far away the nearest train station is. (1)
- 1.1.3 Which of the following is NOT a physical factor that influences site?  
A. Water.  
B. Soil.  
C. Amount of open space.  
D. The number of trade routes the settlement has access to. (1)
- 1.1.4 Farming is a:  
A. Secondary activity  
B. Tertiary activity  
C. Quaternary activity  
D. Primary activity (1)
- 1.1.5 A settlement that develops around a natural river crossing is influenced by:  
A. Historical factors  
B. Trade and transport factors  
C. Political factors  
D. Cultural factors (1)
- 1.1.6 Why did settlements often develop near rivers?  
A. Rivers are easy to defend  
B. Water is available for people and farming  
C. Rivers provide building materials  
D. Rivers attract tourists. (1)

1.1.7 The relationship between a settlement and nearby rivers, roads and other settlements is known as its:

- A. Site
- B. Situation
- C. Function
- D. Pattern (1)

1.1.8 A wet-point site is located:

- A. On a mountain
- B. Near a reliable source of water
- C. In a desert
- D. Far from rivers (1)

(8x1) (8)

**[8]**

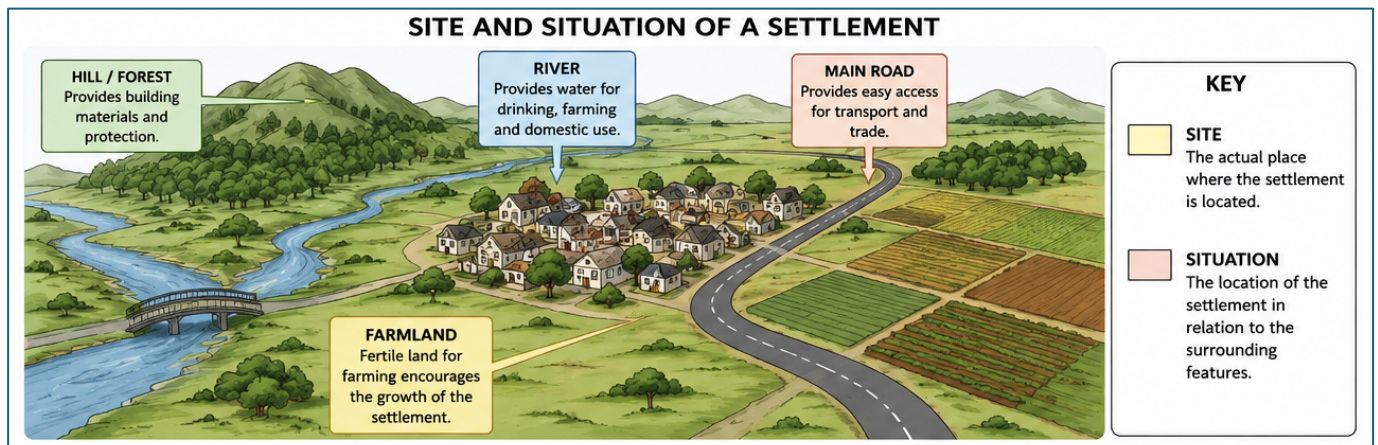

1.2 Choose a term from COLUMN B that matches the description in COLUMN A. Write only the letter (A–J) next to the question number (1.2.1–1.2.7) in the ANSWER BOOK, for example 1.2.8 K.

| Column A |                                                                                  | Column B                       |
|----------|----------------------------------------------------------------------------------|--------------------------------|
| 1.2.1    | The migration of people from urban to rural areas                                | A rural depopulation           |
| 1.2.2    | The movement of people from rural areas to urban areas                           | B urbanisation                 |
| 1.2.3    | Migration of an age group                                                        | C decentralisation             |
| 1.2.4    | The principle that all individuals are entitled to meet their basic human needs. | D basics needs philosophy      |
| 1.2.5    | An increase in the proportion of people living in urban areas                    | E integrated rural development |
| 1.2.6    | Focused on creating employment in rural areas by building industries             | F selective outward migration  |
| 1.2.7    | Improve farming as well as to meet the basic needs of people                     | G rural-urban migration        |
|          |                                                                                  | H counter-urbanisation         |
|          |                                                                                  | I collective strategy          |
|          |                                                                                  | J social justice               |

(7 x 1) (7)

**[7]**

1.3 Refer to the diagram below and answer the questions that follow:

[Source: Examiner's own image]

- 1.3.1 **List** TWO site factors that may have influenced the development of this settlement. (2x1)(2)
- 1.3.2 **Give** ONE example of a tertiary activity that the settlement above might engage in. (1x1)(1)
- 1.3.3 The settlement next to the river is a wet point settlement. **Differentiate** between wet and dry point settlements. (2x2)(4)
- 1.3.4 **Explain** why rural settlements are often dispersed. (1x2)(2)
- 1.3.5 **Describe** TWO factors that may have influenced the pattern and shape of this settlement. (2x2)(4)
- 1.3.6 **Why** might this village grow into a town over time? (1x2)(2)

[15]

1.4 Refer to the article below and answer the questions that follow:

### Government Intensifies Efforts to Improve Land Reform

21 May 2026

Government is intensifying efforts to accelerate land reform, strengthen tenure security and modernise land administration systems as part of efforts to address historical inequalities and rural underdevelopment that resulted from apartheid land policies. This is according to Minister of Land Reform and Rural Development, Mzwanele Nyhontso, who presented the department's Budget Vote in the National Assembly on Wednesday. Nyhontso said the department's work remains focused

on equitable access to land, restitution of land rights, sustainable rural livelihoods and improved spatial governance.

During the past year, government acquired approximately 53 000 hectares of land and allocated more than 35 000 hectares to qualifying individuals and communities. A large portion of this land was allocated to women and young people. Government also transferred land to farm dwellers, labour tenants, and communities that had previously been denied land rights. New legislation is being developed to improve access to land and strengthen land administration systems.

Despite these efforts, a number of challenges continue to affect the success of land reform projects. Government has identified problems such as inadequate post-settlement support, a lack of farming skills and training, poor financial management, business failures, and conflicts within some communities. Many beneficiaries struggle to use the land productively because they do not receive enough technical, financial, and agricultural support after receiving land.

[Source: <https://www.sanews.gov.za/south-africa/government-intensifies-efforts-accelerate-land-reform>]

1.4.1 **Define** the term land reform. (1x2)(2)

1.4.2 According to the extract, **why** has the land reform programme struggled to succeed? (1x1)(1)

1.4.3 **Explain** TWO reasons why land reform is necessary in South Africa. (2x2)(4)

1.4.4 In a **short paragraph, discuss** methods that the government can put in place to provide support to people resettled on land after land reform. (4x2)(8)

**[15]**

1.5 Refer to the cartoon below showing the impact of the current Ebola outbreak in central Africa and answer the questions that follow:

[Source: Tony Namate – Ebola Outbreak ]

- 1.5.1 **Describe** the main message of the cartoon. (1x2)(2)
- 1.5.2 **What** social justice issue is being highlighted in this cartoon? (1x1)(1)
- 1.5.3 **Explain** how the cartoon represents rural vulnerability during disease outbreaks. (2x2)(4)
- 1.5.4 Disease outbreaks like this are particularly damaging to the future of the rural communities in which they happen. **Describe** TWO consequences of disease outbreaks on rural communities. (2x2)(4)
- 1.5.5 **Discuss** TWO realistic ways the international community and local governments could improve support during rural health crises in Africa. (2x2)(4)

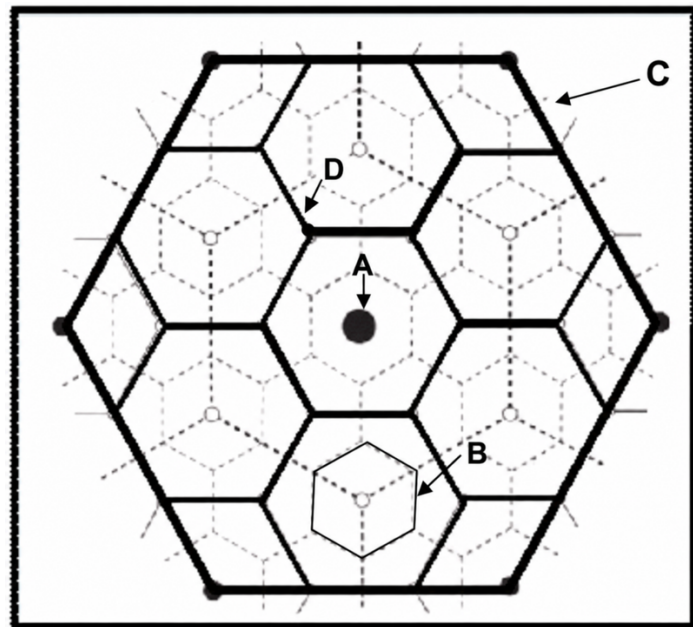

[15]

[Question 1: 60 marks]

## QUESTION 2: URBAN SETTLEMENTS

2.1. Refer to the following diagram that represents the hierarchy of urban places. Various options are provided as possible answers to the following questions. Choose the correct answer and write only the letter (A – D) next to the question numbers (2.1.1 to 2.1.7) in the ANSWER BOOK, e.g. 2.1.9 D.

[Source: Adapted from <https://www.semanticscholar.org/paper/Some-Economic-Extensions-of-Central-place-Theory-Ishikawa-Toda/44eceb739767c4afedb4bbac23042f0893c0dc82> ]

- 2.1.1 The diagram above represents the ... model/theory.
- A. concentric circle
  - B. multiple nuclei
  - C. Harris and Ullman
  - D. central place (1)
- 2.1.2 The geographer who designed the theory mentioned in QUESTION 2.1.1 is known as ...
- A. Walter Christaller
  - B. Marvin Harris
  - C. Harold A. Ullman
  - D. David Anderson (1)
- 2.1.3 According to the hierarchy of settlements, **A** on the diagram represents a ...
- A. town.
  - B. city.
  - C. hamlet.
  - D. village. (1)

2.1.4 Line B on the diagram represents the boundary of a ... trading area.

- A. hamlet
- B. village
- C. town
- D. city

(1)

2.1.5 Settlement ... will have a ... and a large range.

- (i) A
- (ii) D
- (iii) large sphere of influence
- (iv) small sphere of influence

- A. (i) and (iii)
- B. (i) and (iv)
- C. (ii) and (iii)
- D. (ii) and (iv)

(1)

2.1.6 The settlement type at A on the diagram is a ... town.

- A. specialised
- B. break-of-bulk
- C. central place
- D. trade and transport

(1)

2.1.7 Which of the following services is a high-order service with the largest range?

- A. Carwash
- B. International airport
- C. Bakery
- D. Exclusive jewellery shop

(1)

(7 x 1) (7)

**[7]**

2.2 Choose the word/term from COLUMN B that matches the statement in COLUMN A. Write only Y or Z next to the question numbers (2.2.1 to 2.2.8) in the ANSWER BOOK, e.g. 2.2.9 Y.

|       |                                                                                                                                    |                                                           |
|-------|------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|
| 2.2.1 | Process whereby people move from urban areas into surrounding rural areas                                                          | <b>Y</b> centralisation<br><b>Z</b> counter-urbanisation  |
| 2.2.2 | The location of a settlement in relation to surrounding features and other settlements is known as its                             | <b>Y</b> site<br><b>Z</b> situation                       |
| 2.2.3 | A settlement that developed at the point where cargo is moved between ships and trucks is an example of a ...                      | <b>Y</b> break-of-bulk point<br><b>Z</b> junction town    |
| 2.2.4 | Unplanned spread of urban areas                                                                                                    | <b>Y</b> urban sprawl<br><b>Z</b> urban decay             |
| 2.2.5 | Goods and services that are purchased frequently and are required on a daily basis.                                                | <b>Y</b> high-order goods<br><b>Z</b> low-order goods     |
| 2.2.6 | Arrangement of settlements in an area from the smallest to the largest.                                                            | <b>Y</b> primate metropolitan area<br><b>Z</b> hierarchy  |
| 2.2.7 | The process whereby wealthier residents move into a previously low-income area, often increasing property values and rental costs. | <b>Y</b> urban renewal<br><b>Z</b> gentrification         |
| 2.2.8 | Theory which states that land values decrease with increasing distance from the Central Business District (CBD).                   | <b>Y</b> Bid-Rent Theory<br><b>Z</b> Central Place Theory |

(8 x 1) (8)

**[8]**

2.3 Refer to the infographic below to answer the following questions.

Office Space: Major Trend to Decentralisation

“I thus expect decentralised nodes to continue to be the more popular location option. That’s not to say that CBDs don’t have an important place, especially in terms of their potential for high-density affordable residential accommodation, but I believe the more decentralised urban business model is here to stay.”

A

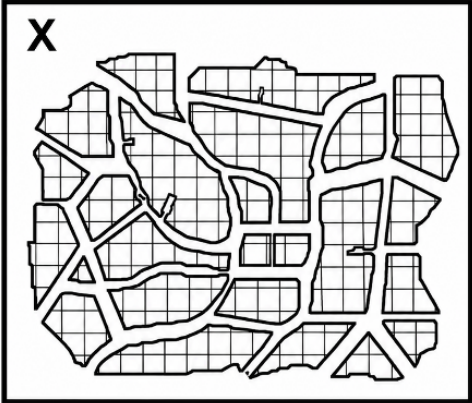

B

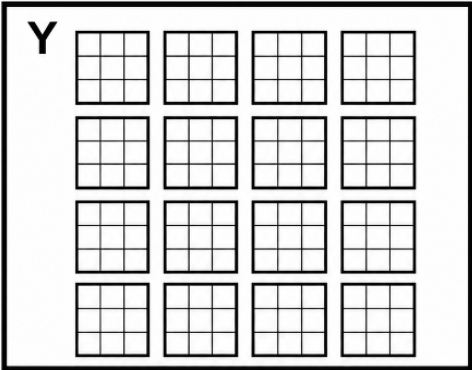

Movement of businesses into residential areas.

STREET PATTERNS

X

Y

2.3.1 Identify the land-use zone indicated as **A** in the infographic.

(1 x 1) (1)

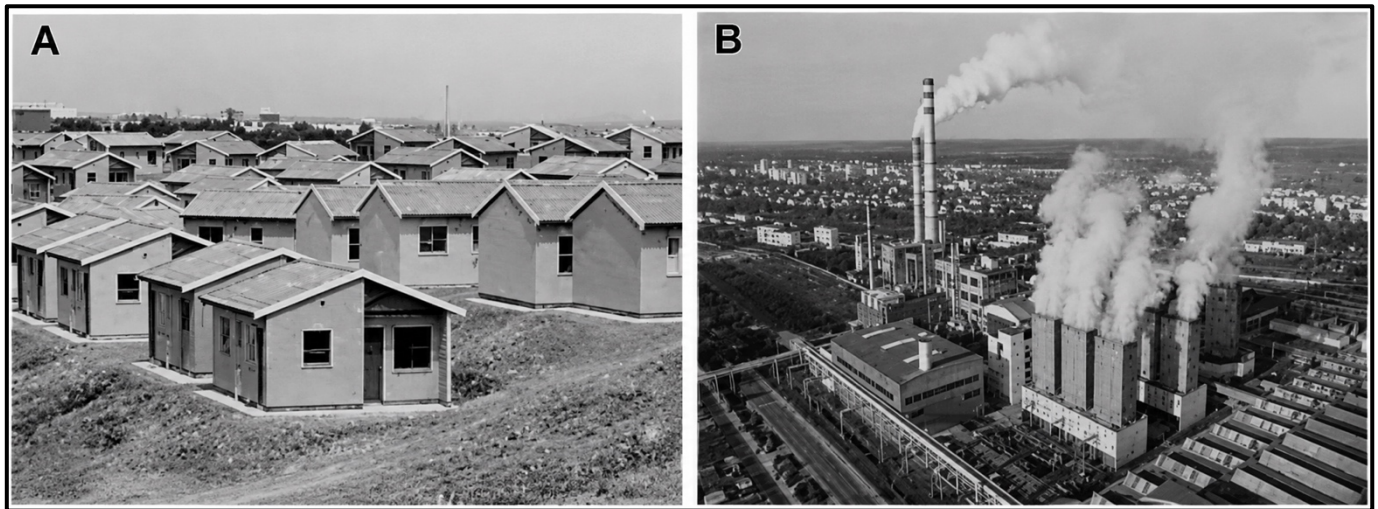

2.3.2 Quote from the infographic ONE role that land-use zone **A** may play in the future.

(1 x 1) (1)

12

- 2.3.3 **State** ONE characteristic of the land-use zone **A** that is evident in the infographic.  
(1 x 1) (1)
- 2.3.4 **Which** street pattern, **X** or **Y**, is usually associated with the land-use zone at **A**?  
(1 x 1) (1)
- 2.3.5 **Give a reason** for your answer to QUESTION 2.3.4.  
(1 x 2) (2)
- 2.3.6 **Give** a term used for the movement of businesses away from land-use zone **A** towards the suburbs.  
(1 x 1) (1)
- 2.3.7 People and businesses are often forced to move out of land-use zone **A**. In a paragraph of approximately EIGHT lines, **discuss** factors that cause businesses to move away from land-use zone **A**.  
(4 x 2) (8)
- [15]**

2.4 Refer to the photographs showing buildings in two land-use zones.

[Source: <https://propertywheel.co.za/2023/01/bulk-of-new-residential-property-is-taking-place-in-the-affordable-housing-category/>; <https://www.alamy.com/stock-photo-industrial-plant-with-smoke-stacks-industrial-area-38303452.html>]

Refer to photograph **A**.

2.4.1 **Classify** the residential area shown in the photograph as either high-income or low-income.

(1 x 1) (1)

2.4.2 **Give evidence** from the photograph to support your answer to QUESTION 2.4.1.

(1 x 2) (2)

Refer to photographs **A** and **B**.

2.4.3 **Why** is the type of residential area (answer to QUESTION 2.4.1) often located close to an industrial area?

(2 x 2) (4)

2.4.4 **Give TWO** social injustices that are experienced by people in this residential area due to the industrial activity at **B**.

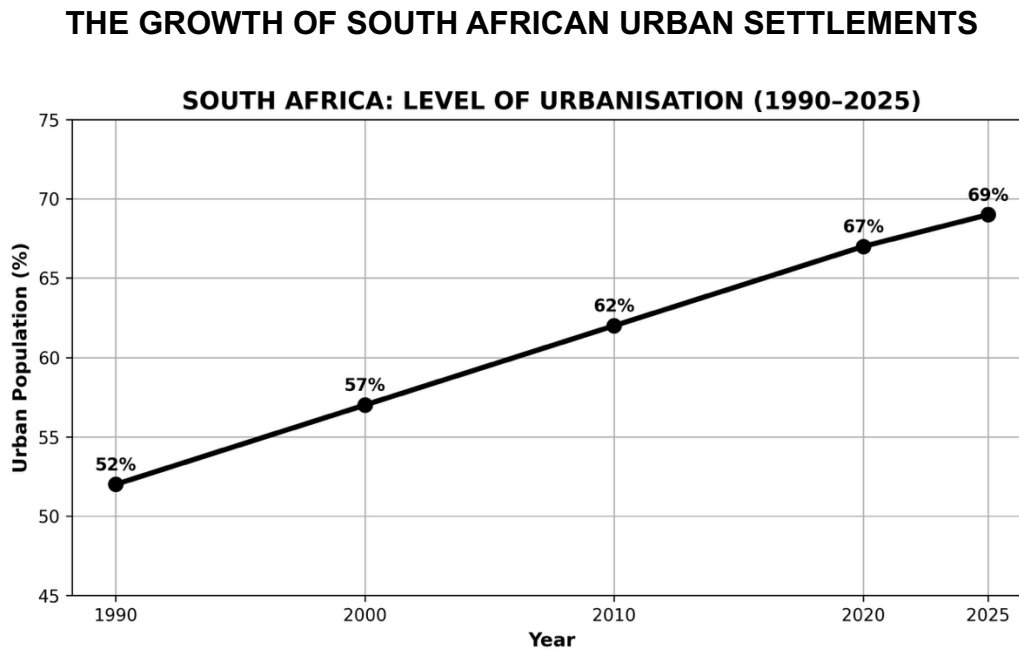

(2 x 2) (4)

2.4.5 **Explain TWO** measures that can be implemented by the industries at **B** to reduce the impact of the social injustices.

(2 x 2) (4)

**[15]**

## 2.5 Study the case study on the growth of South African urban settlements.

In 1990, only 52% of South Africans lived in urban settlements. Today, approximately 69% of the country's population lives in urban areas, highlighting the significant shift from a predominantly rural society to a largely urban one. The urban population continues to grow at a rate of approximately 1.5–2.0% per year. The population density within the nation has risen, reaching 46 inhabitants per square kilometre, meaning more people are sharing less space.

Many opportunities for work and leisure can be found in the urban locations of South Africa. In theory, urban settlements create conditions for improved health, education and economic activity because services are concentrated over a small area. In practice, however, rapid urbanisation degrades environmental and health conditions, places a massive strain on the provision of services and fuels (encourages) crime and social tension.

Gauteng has the biggest and fastest growing population of all nine provinces in South Africa. The province experienced a population increase of 33,7% between 2010 and 2020, which is more than double the average national population increase.

[Source: <https://armour.org.za/wp/about-us/armour-a-voice-for-water/> ]

2.5.1 **Give** ONE factor from the case study which indicates why people prefer to live in urban areas.

(1 x 1) (1)

2.5.2 **Differentiate** the terms *level of urbanisation* and *rate of urbanisation*.

(2 x 2) (2)

2.5.3 **Explain** why the case study refers to Gauteng as the province with the biggest and fastest-growing population in South Africa.

(1 x 2) (2)

2.5.4 According to the case study, “rapid urbanisation degrades environmental and health conditions”. **Describe** how rapid urbanisation results in the degradation of these conditions.

(2 x 2) (4)

2.5.5 **Explain** how increasing urbanisation places pressure on service delivery in Gauteng.

(3 x 2) (6)

**[15]**

**[Question 2: 60 marks]**

**Section A Total: 120 marks**

SECTION B

QUESTION 3: GEOGRAPHICAL SKILLS AND TECHNIQUES

BACKGROUND INFORMATION ON KROONSTAD

Coordinates: 27°38'40"S, 27°45'7"E

Kroonstad is a town in South Africa's Free State province. The town is located on the banks of the Vals River, a tributary of the Vaal River. Kroonstad is a busy agricultural and transportation centre. It has marshalling yards, grain elevators, engineering works, and vocational and trade schools. The Kroonstad project is a gold exploration project that could potentially become a new Witwatersrand goldfield. The project has an estimated gold exploration target of between 6,06 million ounces and 62,41 million ounces.

Located about 60 km southwest of Kroonstad, Bambanani was an underground gold mine operated by the Harmony Gold Mining Company. The mine was closed in June 2022 due to increased seismic activity and related risks.

Kroonstad railway station serves the town and is situated on a key railway junction that connects Cape Town to Johannesburg via Bloemfontein.

### 3.1 MAP SKILLS AND CALCULATIONS

Refer to the topographical map and the orthophoto map.

3.1.1 **What** is located at 6 on the orthophoto map?

(1 x 1) (1)

3.1.2 **Provide** the coordinates for windpump in block A4 on the topographic map.

(2 x 1) (2)

3.1.3 **Calculate** the **average gradient** between spot height 1344 (block E1) and spot height 1346 (block D4) on the ORTHOPHOTO.

$$\textbf{Gradient} = \frac{\textbf{Vertical Interval (VI)}}{\textbf{Horizontal Equivalent (HE)}}$$

(4 x 1) (4)

3.1.4 Calculate the **area** of the orthophoto map as seen on the topographic map.

Answer in km<sup>2</sup>.

$$\textbf{Area} = \textbf{length} \times \textbf{breadth}$$

(3 x 1) (3)

[10]

### 3.2 MAP INTERPRETATION

3.2.1 The feature found at approximately 27°37'35" South and 27°13'25" East on the topographic map is ...

A. Trig beacon.

B. Diggings.

C. A Dam.

D. Sewerage works.

(1 x 1) (1)

3.2.2 The presence of many dams in this area indicates...

A. Rain all year.

B. A very dry area.

C. Seasonal rain.

D. Desert-like conditions.

(1 x 1) (1)

3.2.3 The map to West of 2727CA is....

A. 2727DB

B. 2726DB

C. 2627DB

D. 2727BD

(1 x 1) (1)

Refer to the topographic map and answer the questions that follow.

- 3.2.4 **Which** area is wealthier, **Koekoe Village or Kroonstad**? (1 x 1) (1)
- 3.2.5 **List** TWO pieces of evidence from the map to justify your answer to question 3.2.4. (2 x 1) (2)
- 3.2.6 **List** TWO site factors evident on the map that played a role in the development of Kroonstad. (2 x 1) (2)
- 3.2.7 **Discuss** Kroonstad's situation. Refer to both physical and economic factors in your answer. (2 x 2) (4)
- [12]**

### 3.3 GEOGRAPHIC INFORMATION SYSTEMS (GIS)

[Source: CEMA, GIS and Precision Agriculture promotional graphic, available from [www.cemasig.org](http://www.cemasig.org)]

3.3.1 **What** type of sensing is being shown in the image, remote sensing or physical sensing?

(1 x 1) (1)

3.3.2 **Provide** ONE advantage of using drones to survey fields.

(1 x 2) (2)

3.3.3 **List** TWO layers farmers might use in GIS.

(2 x 1) (2)

3.3.4 **Can** GIS help farmers increase their yields? **Provide** ONE reason to support your answer.

(1+(1x2)) (3)

[8]

[Question 3: 30 marks]

**Section B Total: 30 marks**

**Exam Total: 150 marks**
